

Room Olympics

We hope you enjoy our family's traditional game as much as we have over the years!

- PLAN** Sketch a diagram of the space that you'll be playing in. We've shown an example of our house. You don't need to play in every room, but it's good to know what your options are. You can play inside and outside.
- SELECT** Make a list of games you like to play. It's best to pick ones that have multiple players and don't take a long time to play. Sometimes you can figure out ways to make long games shorter.
Visit LookWhatIDid.org/play-games-for-DIY-games.
- MATCH** Assign the games you have to each room. It's okay to have more than one game in a room, but a lot of the fun is in matching the game to the room. For instance, you can have a game that involves water in a bathroom.
- TRACK** Write down the rules for the game and how you're going to award points. Make a chart for keeping track of the games and scores.
- PLAY!** Make and gather prizes. See last page for torch and medals coloring pages.. Gather the contestants (uniforms optional)! Cue the Olympic Fanfare theme song and light the olympic torch.
